Mackinnon Lists + iNEXT

Example:

List	Date	Specie
1	9-apr.	<i>Pitangus sulphuratus</i>
1	9-apr.	<i>Furnarius rufus</i>
1	9-apr.	<i>Turdus amaurochalinus</i>
1	9-apr.	<i>Turdus rufiventris</i>
1	9-apr.	<i>Eupetomena macroura</i>
1	9-apr.	<i>Camptostoma obsoletum</i>
1	9-apr.	<i>Sicalis flaveola</i>
1	9-apr.	<i>Tyrannus melancholicus</i>
1	9-apr.	<i>Vanellus chilensis</i>
1	9-apr.	<i>Columba livia</i>

- We sampled 4 natural and 7 urban sites using 10-species mackinnon lists, compiling 23 surveys in natural areas and 44 in urban areas between may 2016 and february 2021.
- We recorded 153 species, and the rarefaction-based estimate is 175 species for the natural areas and 150 for the urban area.
- The relative abundance of species can be calculated from the number of lists on which each species occurred.

153 species total and 5 endemics

Rodrigo Conte

Neothraupis fasciata

Vinícius Pontello

Cyanocorax cristatellus

Leandro Espino

Antilophia galeata

Silene Andrade

Alipiopsitta xanthops

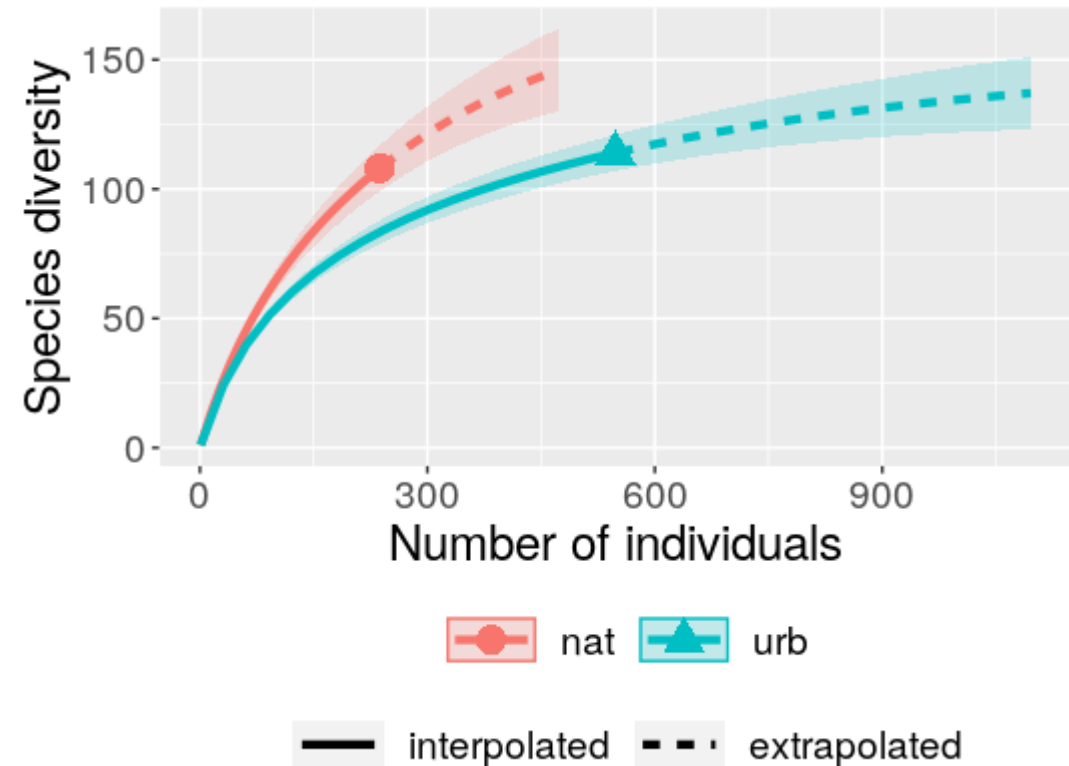

Nick Athanas

Cypsnagra hirundinacea

Results

Analysis:

- » Simpson Diversity:
 - Natural sites: 62,7
 - Urban sites: 48,9
- » Species richness is similar between urban and natural point sites.
- » Jaccard similarity index: 0,17
 - Only 9 species in both types of site

The sum of the bird species registered, list after list, is presented in the form of a collector curve or a species accumulation curve.

Mackinnon Lists x Transect for CO site

Mackinnon

- Coragyps atratus
- Tyrannus savana
- **Tyrannus melancholicus**
- **Mimus saturninus**
- **Patagioenas picazuro**
- **Furnarius rufus**
- Caracara plancus
- **Pitangus sulphuratus**
- **Vanellus chilensis**
- **Turdus rufiventris**
- Brotogeris chiriri
- Sicalis flaveola

Transect

- **Furnarius rufus**
- Eupetomena macroura
- Elaenia flavogaster
- **Patagioenas picazuro**
- Sporophila nigricollis
- **Turdus rufiventris**
- **Tyrannus melancholicus**
- **Pitangus sulphuratus**
- Cypsnagra hirundinacea
- **Mimus saturninus**
- Volatinia jacarina
- **Vanellus chilensis**

Obrigada!
Thank you!
